

SMOKE ALARM INSTALLATION PROGRAM

WHAT IS THE SMOKE ALARM INSTALLATION PROGRAM?

In October 2023, Addison Township Fire Department joined the MI Prevention statewide fire safety campaign to reduce the number of fire related injuries, deaths and property loss in Michigan. In an effort to assist Addison Township residents with preventing fires in their homes, the fire department is actively installing smoke alarms and educating residents on the best fire safety practices. The Addison Township Fire Department aims to educate residents, increase awareness and help to prevent life and property loss.

WHAT IS THE COST?

The smoke alarm installation program is FREE for all Addison Township residents!

Addison Township Fire Department's Prevention Division will install up to six smoke alarms free of charge throughout the residence. Homeowners will be educated about home fire safety, smoke alarm functions, and smoke alarm maintenance.

HOW CAN YOU PARTICIPATE IN THE PROGRAM?

If you or anyone you know wish to partake in the cost-free smoke alarm installation program, please contact the Addison Township Fire Department. Upon notification, the fire department will schedule an install date.
